## XTH4079

XTH4079 (YW/79d) has exceptional kernel depth and case recovery for the cut kernel market. XTH4079 has great kernel color and flavor for the main season yellow processing market, along with moderate resistance to Northern Corn Leaf Blight.

## **Product Features**

- Great kernel color and flavor
- Consistent kernel recovery and yield performance across environments
- Moderate resistance to NCLB

| TRAITS                | DESCRIPTION                          | DATA*     |
|-----------------------|--------------------------------------|-----------|
| Kernel Color          | Yellow                               | YW        |
| Maturity (Days)       |                                      | 79        |
| Plant Height (Inches) |                                      | 86        |
| Ear Height (Inches)   |                                      | 27        |
| Number of Kernel Rows |                                      | 18-20     |
| Ear Length (Inches)   |                                      | 7.75-8.25 |
| Ear Diameter (Inches) |                                      | 2.00-2.20 |
| Husk Color            | Medium Green                         | 4         |
| Flag Leaves           | Good Flag Leaves                     | 4         |
| Husk Protection       | Adequate Coverage                    | 4         |
| Shank                 | Medium Shank Length                  | 4         |
| Tenderness            | Good Tenderness; Xtra-Tender Quality | 4         |
| Sweetness             | Good Sweetness & Flavor              | 4         |

| DISEASE & HERBICIDE | GW | PS   | NCLB | MDM | HPPD/ALS |
|---------------------|----|------|------|-----|----------|
| REACTIONS           | М  | RplD | М    | MR  | T        |

GW = Goss's Wilt (Clavibacter michiganensis subsp. nebraskensis), PS = Common Rust (Puccinia sorghi), NCLB = Northern Corn Leaf Blight (Exserohilum turcicum), MDM = Maize dwarf mosaic (Maize Dwarf Mosaic Virus), also resistant to HPV (High Plains Virus) and SCMV (Sugarcane Mosaic Virus), HPPD/ALS = Indicates reaction to ALS and HPPD inhibiting herbicides. Examples of herbicides with these modes of action are Accent (ALS), Callisto (HPPD), and Laudis (HPPD). Always read and follow herbicide label instructions.

\*Data are representative summaries from hybrid evaluations in Champaign, IL and Plover, WI. Ordinal ratings are on a scale of 1 to 9, where 1 indicates the best value
