Olympic MXR (YW/81d) An excellent choice for the main season cob and cut kernel processing markets. With excellent yield, a robust disease package and strong resistance to lodging; Olympic MXR delivers season long performance.

## **Product Features**

- · Excellent yield and recovery data
- Resistant to Common Rust, MDM and Moderate NCLB
- Strong lodging tolerance

| TRAITS                | DESCRIPTION                           | DATA <sup>*</sup> |
|-----------------------|---------------------------------------|-------------------|
| Kernel Color          | Yellow                                | YW                |
| Maturity (Days)       |                                       | 81                |
| Plant Height (Inches) |                                       | 85                |
| Ear Height (Inches)   |                                       | 30                |
| Number of Kernel Rows |                                       | 18-20             |
| Ear Length (Inches)   |                                       | 8.5-9             |
| Ear Diameter (Inches) |                                       | 2.00-2.25         |
| Husk Color            | Medium Green                          | 4                 |
| Flag Leaves           | Good Flag Leaves                      | 4                 |
| Husk Protection       | Adequate Coverage                     | 4                 |
| Shank                 | Medium Long Shank Length              | 5                 |
| Tenderness            | Moderate Tenderness; Shipping Quality | 5                 |
| Sweetness             | Good Sweetness & Flavor               | 4                 |

## DISEASE & HERBICIDE REACTIONS

GW = Goss's Wilt (Clavibacter michiganensis subsp. nebraskensis), PS = Common Rust (Puccinia sorghi), NCLB = Northern Corn Leaf Blight (Exserohilum turcicum), MDM = Maize dwarf mosaic (Maize Dwarf Mosaic Virus), also resistant to HPV (High Plains Virus) and SCMV (Sugarcane Mosaic Virus), HPPD/ALS = Indicates reaction to ALS and HPPD inhibiting herbicides. Examples of herbicides with these modes of action are Accent (ALS), Callisto (HPPD), and Laudis (HPPD). Always read and follow herbicide label instructions.

\*Data are representative summaries from hybrid evaluations in Champaign, IL and Plover, WI. Ordinal ratings are on a scale of 1 to 9, where 1 indicates the best value
