

## SPRINTER XR Xtra-Tender<sup>™</sup>

Sprinter XR (YW/ 67d) is one of the earliest yellow supersweets on the market with Xtra-Tender eating quality. Great husk protection, strong tip fill, and a compact shank make Sprinter XR perfect for early fresh and shipping markets.

## **Product Features**

- First early maturity, 67 DRM
- · Resistant to Common Rust
- RpGDJ
- Determinate tip fill and good husk protection
- Great kernel color and appearance

| Plant Height (Inches) |                                      | 68                |
| Ear Height (Inches)   |                                      | 23                |
| Number of Kernel Rows |                                      | 14-16             |
| Ear Length (Inches)   |                                      | 7-7.75            |
| Ear Diameter (Inches) |                                      | 1.80-1.90         |
| Husk Color            | Medium Green                         | 4                 |
| Flag Leaves           | Moderate Flag Leaves                 | 5                 |
| Husk Protection       | Good Coverage                        | 3                 |
| Shank                 | Medium Shank Length                  | 4                 |
| Tenderness            | Good Tenderness; Xtra-Tender Quality | 4                 |
| Sweetness             | Very Good Sweetness & Flavor         | 3                 |

## DISEASE & HERBICIDE REACTIONS

| SW | PS    | NCLB | MDM | HPPD/ALS |
|----|-------|------|-----|----------|
|    | RpGDJ | M    |     | Т        |

GW = Goss's Wilt (Clavibacter michiganensis subsp. nebraskensis), PS = Common Rust (Puccinia sorghi), NCLB = Northern Corn Leaf Blight (Exserohilum turcicum), MDM = Maize dwarf mosaic (Maize Dwarf Mosaic Virus), also resistant to HPV (High Plains Virus) and SCMV (Sugarcane Mosaic Virus), HPPD/ALS = Indicates reaction to ALS and HPPD inhibiting herbicides. Examples of herbicides with these modes of action are Accent (ALS), Callisto (HPPD), and Laudis (HPPD). Always read and follow herbicide label instructions.

\*Data are representative summaries from hybrid evaluations in Champaign, IL and Plover, WI. Ordinal ratings are on a scale of 1 to 9, where 1 indicates the best value
